

Ashburton Consultation - response form

We need your views on the different options for development in Ashburton. When assessing the different options we will try to support what local people want, however we also need to think about a range of issues such as; meeting the local need for affordable housing; the impact of development on the character and appearance of the town; flood risk; traffic and parking; keeping a good level of employment in Ashburton; and viability (for example whether development might provide affordable housing, green space or parking).

Bearing in mind the above issues, we would like to know would you think about the following:

Do you think the sites at Chuley Road should be redeveloped?

What would you like to see as part of this redevelopment?

Is Peartree Cross an appropriate location for development?

The land at Longstone Cross may not provide as much affordable housing as initially thought, are there any additional sites?

Do you have any other comments?

How can you give us your comments? You can complete this form and leave it with us, take the form away and send it in, or send us your comments via email. This form is also available on our web site.

We must receive any comments by Friday 2 December 2011
