

EDUCATIONAL REGISTER OF GEOLOGICAL SITES

A Guide to Geological Fieldwork in Devon

Welcome to the Educational Register of Geological Sites which is designed to encourage the educational use of Devon's fascinating and diverse geological and geomorphological heritage.

This web site includes a mix of text, sketches, maps and photos for approximately 80 geological sites throughout Devon that are considered suitable for educational use. This information is also great for those with a personal interest in geology.

The Register can provide a stimulating way to teach and also to learn about the geological evolution of Devon's landscape. It is designed to be of use in the planning of fieldwork trips and can also make a valuable contribution to the teaching of geography, geology and science in the National Curriculum.

General Contents

A contents page for the whole of the Register with links through to individual sections.

Introduction

Background information on the Register, the educational value of Devon's geology, safety consideration in planning fieldwork and a summary of Devon's geological history.

The List of Sites

A full list of all sites included in the Register with links to the detailed entries for sites you wish to visit.

The Site Location Map

A map showing all the sites within each Council area in Devon, with links to individual site details.
